

**Custom tailored PowerPoint workshops, presentations, and seminars to meet the needs of your organization or group**

Choose any combination of the following:

- Overview of Fetal Alcohol Syndrome (FAS) and Fetal Alcohol Effects (FAE)
- Overview of the Effects of Alcohol and Other Drugs on the Pregnant Women
- FAS and the Brain: How Prenatal Alcohol Exposure Affects Children's Behavior
- Early Intervention Strategies for Infants and Young Children Exposed Prenatally to Drugs
- FASE Odyssey 2001: A Guide to Caring for Children Prenatally Exposed to Alcohol and Other Drugs
- The School Years: How to Help the Alcohol Affected Child Succeed in the Classroom.
- The Visible Kid With the Invisible Disability: How to Recognize Fetal Alcohol Effects (FAE) and Apply Effective Intervention Strategies.
- Mothers In Treatment: What They Need to Know to Cope With Children Exposed to Alcohol and Other Drugs
- Absence of Malice: How to Design a Plan to Help Youth and Adults in the Court System.
- Looking Up the River: A New Perspective on Prevention of Fetal Alcohol Syndrome Disorders
- Native American Issues: Healing to Wellness in the Community
- Bridging the Information Gap: The Grand Canyon of FASD

Teresa Kellerman is the Director of the FAS Community Resource Center in Tucson, Arizona, President of Fasstar Enterprises, and cofounder of FASWORLD. She is the adoptive parent of John, a young adult with Fetal Alcohol Syndrome. John sometimes assists in presentations.

Teresa has 10 years training experience and 25 years field experience. She has participated in a workgroup for the FAS Surveillance Project in Arizona for the Center for Disease Control and Prevention. She conducts FAS trainings for the Arizona Department of Health, the National Association of Drug Court Professionals, and the Native American Alliance Foundation.

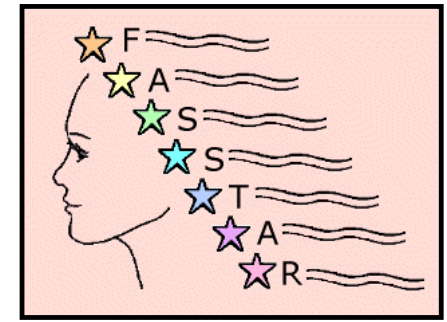

Teresa advocates for families, consults with professionals, facilitates support groups, produces workshops, and offers classroom presentations to students of all ages. She has authored published articles, including a chapter in a popular new book on FAS, "Fantastic Antone Grows Up."

Teresa is currently working with Deb Evensen, nationally known FAS education expert in Alaska on project FACTS (Fetal Alcohol Consultation and Training Services). Teresa shares a wealth of information on the Internet at this web site: <http://www.fasstar.com>.

To arrange for Teresa and John to present a PowerPoint training workshop on FAS disorders, call (520) 296-9172 or email [fasstar@cox.net](mailto:fasstar@cox.net)
